

Reference for Zuzanna Jozkow

To whom it may concern,

I am happy to provide this reference for Zuzanna Jozkow.

I know Zuzanna both as her professor in Business Development and through my role as Head of Section in Technology Entrepreneurship and Innovation at the University of Southern Denmark. In my experience, Zuzanna is a highly motivated, curious, and proactive student with a strong ability to connect technology, innovation, business development, and communication.

One thing that stands out about Zuzanna is that when she sets a goal, she follows through. She once told me that public speaking was something she wanted to work on. Shortly after, she represented the Faculty of Engineering giving a welcome speech to around 700 students and she did it brilliantly. She identifies what she wants to improve, takes action, and delivers.

Zuzanna brings initiative, positive energy, and a strong sense of responsibility to the work she takes on. She not only completes tasks, but also thinks about the purpose behind them and how they can create value. If I had the opportunity to hire someone with her profile, I would be very happy to have her on my team.

I believe Zuzanna would be a strong match for a role at the intersection of innovation, technology, knowledge transfer, and communication. She has both the mindset and the drive to contribute meaningfully in an international and interdisciplinary environment such as CERN.

I recommend her highly.

Kind regards,

Marianne Stenger

Associate Professor & Head of Section, Technology Entrepreneurship and Innovation

Department of Technology and Innovation

University of Southern Denmark
